MARKET DULL AND STAGNANT

Many Brokers Left New York to Rest Until the Opening on Monday.

MONEY CONDITIONS BETTER

Bad Railroad News from the West Kept Down Prices, But the Market Closed Steady.

NEW YORK, March 28.—There was a rather desultory contest waged between the opposing elements in the speculation for a small part of the Stock Exchange sossion to-day. When it was demonstrated that neither side whe making any deelded advantage, the professional element, which has been carrying on the contest, practically abandoned it. After that the market fell into a period of dullness such as has not been seen for many weeks. The quietness was accepted as grateful relief from the recent turnioll of the market. The professional testing operations seemed to be largely on the short side of the market. The resistance which those efforts encountered was attributed to the activities of the party of bankers and capitalists said to have been organized for the purpose of supporting the market and supposed to be responsible for the rally in Tuesday's market. When the narket was seen to have regained some degree of equilibrium, many brokers left the city, to be gone until Monday, to enjoy what they regard as a much needed rest. Active operations were in progress at the subtreasury's relief measures for the money market. Payments on account of redemption of government 4's of 1907, of anticipated April interest on the 2's and the 4's of 1907 and deposits of customs revenues with the national banks were all in progress. There is a general feeling of hopefulness that money conditions will improve after the 1st of April. The Bank of England made a weak return for the week past, but discounts eased in London and sterling exchange at Paris, which measures the pressure of outside money requirements on that centre, receded sharply. The showing of the English bank, therefore, and in less degree of the French bank were regarded as reflecting the results of past pressure, with a promise of a melioration for the future. Reports of a deadick between officials and operatives of Western railroads, which threatened a strike, had a distressing effect on the market and helped to the heavy tone of the liter trading. The making up of prices

The tobacco breaks were smaller yesterday than on Wednesday, the total sales being only about 69,000 pounds. There was a larger proportion of good sun-cured wrappers in the offerings than on previous days of the week. Some of these goods sold for 323 per 100 pounds, and from that along down to \$25, numbers of plies going for figures between these. The fillers offered were mainly of the better grades, and they sold well. The breaks to-day will probably be larger than yesterday, as the weather for the past few days has been favorable to the handling of the weed remaining in the burne. The sales this morning will run as follows. First at Crenshaw's, second at Sheekoe, third at Stonewall, and fourth at Sheekoe, third at Stonewall and the same attack. the three petitioners.

The plea for the declaration of the hankruptey of Edgell and Corbin is made on the ground that the filing of an assignment was in violation of the

bankruptcy act.
Referees Crocker and Wickes, counsel for the petitioners in the bank-ruptcy proceedings, said the action was

taken to protect the interests of de-positors and other creditors.

"Some of the funds of these deposi-tors are tied up by the act of assign, ment," said Mr. Crocker, speaking for the attorneys, "and they seek to know by law of the United States how their interests are to be proceeded."
